

HOWEVER YOU BEND IT, WE'LL HELP YOU DEFEND IT. PROFLEX® KNEE PADS // GEL SERIES INJECTED GEL

INJECTED GEL TECHNOLOGY:

FEATURES:

- // 100% Injected Gel and PU foam
- // Gel is injected directly into foam and adhered to the inside lining
- // Gel and foam move in concert with the knee to help disperse pressure
- // Patented suspension cap redirects pressure away from the patella

BENEFITS:

- // Increased wearer comfort
- // Improved worker productivity
- // Enhanced knee pad durability

342 EXTRA LONG CAP

- Unique fastening system uses calf muscle to eliminate straps behind knee
- Extended shin protection optimizes stability and comfort

344 BROAD CAP WITH ARTICULATION

- Unique broad cap shape widely disperses weight and maintains excellent stability
- Padded upper and lower straps on the thigh and calf mean no straps behind the knee

345 LONG CAP

- Long cap design provides full coverage protection
- 3-strap design: two bottom webbing and top elastic keep knee pad in position

355 SHORT CAP

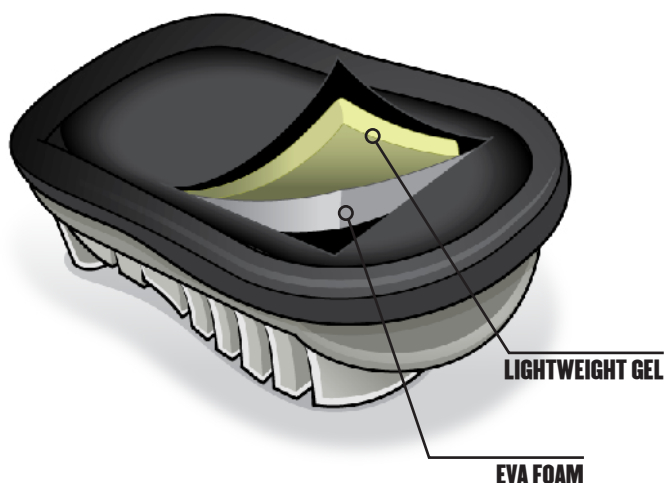

- Innovative cap shape allows rocking and leaning while still maintaining stability
- Short cap design for easy mobility
