| Nominal Voltage (V)               | 120.00                       |
| Nominal Wattage (W)               | 500.00                       |

#### Footnotes

- For use where seal temperature does not exceed 650F.
- A suitable protective shield, screening technique, or both must be used to protect people and surroundings from the possibility of a lamp shattering and from possible ultraviolet radiation.
