

10" LEATHER PROTECTOR LINED WITH KEVLAR®

#1 IN DURABILITY YOUNGSTOWN GLOVE MFG # 16-4200-10

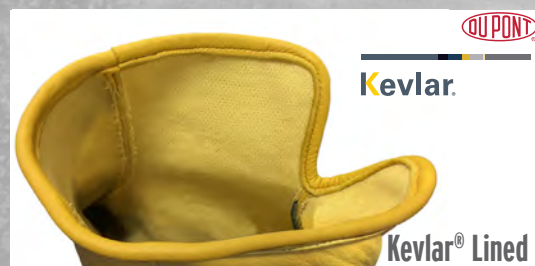

Youngstown's Cut and Flame Resistant 10" Leather Protector Lined with Kevlar® is ergonomically designed to fit perfectly over Class 0 and 00 rubber insulating gloves per ASTM F496/ASTM F696. We use the highest quality goat grain leather along with an innovative glove pattern to create a leather protector with unmatched fit and dexterity.

This model features a lining made with Kevlar® fiber by DuPont™ throughout the entire glove and cuff to provide enhanced cut resistance, puncture resistance and flame resistance. We finish the glove with an FR Strap System to ensure that nothing on this protector will drip, melt or ignite if exposed to an arc flash.
