GLOVE GUARD® Clip

The Glove Guard® clip is the original glove clip and the namesake of our company. Over the years our superior and diversified glove clip product line has proven to reduce hand injuries and glove replacement costs. All our listed glove clips include a safety breakaway. With our various sizes, attachment methods, and color options, we're sure you will find the perfect clip that meets your needs.

VISIT GLOVEGUARD.COM AND FIND THE CLIP THAT'S RIGHT FOR YOU.

CUSTOM IMPRINTING

Gear always looks better with your logo on it. If you haven't customized your clips yet, now is a perfect time to start! *Customization is an easy and fast process* with production taking up to 7 business days after confirmation. Imprints can be up to two colors and printed on both sides of the Glove Guard®, Handi Klip®, and Utility Guard® clips. Imprint your company name, logo, contact information, or even a safety slogan much like this one!

“THINK SAFETY FIRST”

HANDI KLIP® CLIP

The Handi Klip® glove clip uses a ball & socket connection that can be reassembled if pulled apart. The connection also provides a 25 lb breakaway. The clip can withstand the brief flash temps of a fire, and the oversized jaws grip even the largest pairs of gloves.

UTILITY GUARD® CLIP

The Utility Guard® glove clip contains the same features and robust design as the Glove Guard® clip but uses a belt clip instead of a small clamp to attach to the user. To use, slip the belt clip over your belt, pocket, or harness. Then attach your gloves or towel with the large clamp.

HOW TO ORDER

Please contact your preferred safety supplier with the desired part number below to order or obtain a price quote. If you aren't able to find a supplier or don't have one in your area, please contact us, safety@gloveguard.com and we will find one for you.
