

SPECIFICATION SHEET

Description

The Tillman ElkSkin Welding Glove is the most popular glove for pipeline stick welding applications. The 850 is great for withstanding the high heat from stick welding applications.

Made of supple ElkSkin, the 850 resists cracking, stiffening, and maintains the soft feeling in hot environments while protecting hands. The welted fingers contain an extra leather layer between fingers for added spark resistance and durability.

A reinforced thumb gives you the great gripping power needed for heavy-duty welding. A foam lined back provides additional protection from heat and flame protection while providing the dexterity needed.

Features

- Gold premium ElkSkin stays soft even when hot.
- 14" length.
- Durable Welted fingers protect stitching.
- Reinforced thumb for added strength.
- Cotton/foam lined back for added heat protection, unlined palm for enhanced dexterity.
- Sewn with DuPont[™] Kevlar[®] for added strength
- Sizes: S, M, L, XL, 2X

Additional Information

The 850 is also available in a version with a Nomex lining, 850N. The Nomex[®] lined back for added heat protection, unlined palm for enhanced dexterity.

Technical Specifications

Glove Material:	Top grain ElkSkin						
Cuff Material:	Split Cowhide						
Lining:	Foam & Cotton						
Stitching:	DuPont™ Kevlar®						
Closure:	Straight cuff						

Applications

- Construction sites
- Wind energy
- Utility crews
- Fabrication
- Steel Mills
- Oil & Gas
