

PRODUCT:

# WASP & ANT KILLER

WASP & ANT KILLER

# 4335

## THE BASICS:

- WASP & ANT KILLER is very effective any time dangerous insects threaten the safety of personnel in utility, telecommunications, industrial, or commercial applications.
- WASP & ANT KILLER is a solvent-based product that contain three powerful fast-acting ingredients. Tetramethrin provides quick knockdown of flying insects. Permethrin is a long-lasting residual insecticide and provides killing power. PBO is a synergist, which makes the insecticides even more effective.
- The forceful spray pattern delivers a high percentage of the formula to the target site from a safe distance of 12-15 feet. The spray button's high launch angle of 15° makes it easier to hit the target. Unique locking mechanism keeps the spray button in place and ready to use.
- WASP & ANT KILLER is effective in many areas including inside pad-mounted transformers as well as around and inside pull boxes and meter boxes. It is safe to use around high-voltage equipment and all types of telecommunication equipment.

12-15 feet spray pattern.

Use Insect Probe (4357) for ant mound treatment.

Safe to use around high-voltage equipment

Quick and effective insect knockdown plus long-lasting killing power

# RAINBOW

FEATURES	HOW YOU BENEFIT
Contains 3 powerful, fast-acting active ingredients	Quick and effective insect knockdown plus long-lasting killing power
Effective 12 to 15 foot spray pattern	Employee can effectively saturate target from a safe distance
High dielectric strength: 47,300 Volts	Employee safety because of reduced probability of electric shock
