

I. PRODUCT DESCRIPTION

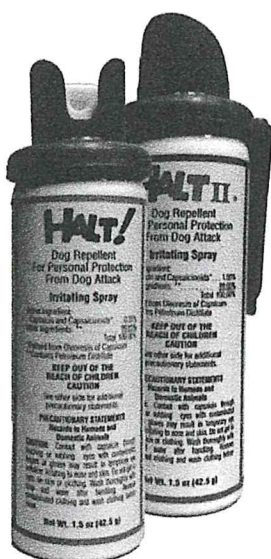

Halt and Halt II are highly effective capsaicin based dog repellents designed to stop an attacking dog in its track. Halt products have been trusted by the United States Postal Service since 1966.

II. APPLICATIONS

Halt and Halt II spray an accurate stream up to 10 feet. A spray thru cap and built in belt clip make for quick access when needed. Use as directed on label, Halt will not stop a trained attack dog.

III. USER BENEFITS

- Stops attacking dogs (and other mammals) in their tracks
- Will not leave lasting effects on the animal
- Easy to carry and use
- Feel protected when outdoors
- Perfect for walking, hiking, running, and biking.

HALT!

DOG REPELLENT FOR PERSONAL PROTECTION FROM DOG ATTACKS

**HUMANE & SAFE
DOG REPELLENT**

U.S. Postal Service letter carriers have used HALT! products since 1966 to repel dog attacks. HALT! immediately puts an end to aggressive behavior, giving people time to move to safety. Capsaicin pepper extract, the active ingredient, results in extreme but temporary discomfort for an attacking dog but does no permanent damage. The spray can be aimed accurately from a distance up to 10 feet.
