CHANCE

C4060030 -- Cover, Pole 12 X 48

These pole covers are used to help protect personnel when raising or lowering a pole between energized lines or to cover poles when rubber glove maintenance is performed in relatively confined areas. The covers are made of high-dielectric linear polyethylene material that will not flash flame. This material will have some softening without deformation at approximately 170°F, and it will resist brittleness at temperatures to -50°F. All Chance pole covers are ribbed to reduce cover contact with the pole, thus minimizing creosote contamination. The rope handles permit personnel to easily spread the covers and snap them around the pole; rubber gloves must be worn during this procedure. Prolonged contact with an energized conductor must not be allowed.

Product Specifications

Product Type	Cover-Up Equipment
Tool Type	Pole Cover
Diameter	12" (305 mm)
Length in (mm)	48" (1219 mm)
Material Type	Non-Standard
UPC Code	09635902046
Standard Package	1
Standard Package Unit	Each
Min Order Qty	1
Weight / Ea. lbs	16.17 lbs

Compressed Product Number

C4060030
