Enclosures and Junction Boxes

### Applications

- Serve as main cable distribution center, or can be used for adding circuits to existing systems.
- Serve as pull boxes.
- Provide access to conductors for maintenance.

### Features

- Removable hub covers permit variable hub arrangements in a wide range of sizes.
- Furnished with top cover, gaskets, and cover screws for all open sides.
- Side covers available blank or with 1, 2, or 3 hubs.
- Provides visibility while making connections and splices (opens on four sides and top).
- Threads are accurately tapped and tapered for tight, rigid joints and ground continuity.
- Hubs in all covers have integral bushings to protect conductor insulation from damage. Hub plate openings are smooth.

### Standard Materials

- RS boxes and covers: malleable iron.
- Gaskets: composition fiber.

### Standard Finishes

- RS boxes and covers: triple coat – (1) zinc electroplate, (2) chromate, and (3) epoxy powder coat.

### Compliances and Compliances

- UL Standard: 50, 50E

RS Box bottom and side frame construction is one piece malleable iron. Smooth hub cover openings prevent damage to conductor insulation.

RE Junction Boxes come in three sizes, furnished with top cover, gaskets and cover screws for all open sides.
