**SPECIFICATIONS**

|                              |  |
|------------------------------|--|
| Category                     | Single Phase - USA                     |
| Input/Output Voltage         | 120/240V ac                            |
| Type                         | Standard                               |
| Interrupting Capacity Rating | 65                                     |
| Amperage                     | 125A                                   |
| Device Type                  | Convertible                            |
| Enclosure                    | Indoor Type 1 Enclosure, Surface Mount |
| UL/CUL Listing               | UL                                     |
| Phase                        | 1 Phase                                |
| Socket Type                  | 0                                      |
| 1" Space                     | 8                                      |
| 1/2" Space                   | 42 , 4 , 24 , 16                       |
| Feed                         | Either                                 |
| Door                         | No                                     |
| GSA Compliance               | No                                     |
| GO Schedule                  | 137D                                   |
| List Price                   | \$113                                  |
