

DIN-Rail Mount Receptacles

The DIN-Rail Series receptacle modules are designed to offer a quick, easy solution for providing utility power to a control cabinet. DIN-Rail Mount Receptacles are designed for mounting on DIN-Rails in equipment cabinets where convenient plug-in surge protection, ground fault protection, or an Industrial Grade duplex receptacle is desired for cord-connected test equipment and computers. The DIN-Rail Mount Receptacles are compatible with DIN 35 standard and low profile rails as well as DIN 32 standard rails, providing a wide range of mounting options.

Features:

- Mounting clip provides easy installation in equipment cabinets
- Designed for use on 120V single-phase AC power sources
- Incoming Line, Neutral and Ground hardwire into terminal block on top of enclosure
- GFCI has a second terminal block for applications requiring feed through protection
- Terminal block accepts #22-#12 AWG conductors

DIN-Rail Mount Single or Duplex Surge Protective Receptacles

Features:

- Provide MOV-based normal mode and common mode L-N, L-G, N-G surge protection
- Hospital Grade Receptacle ensures a secure plug-to-receptacle connection (3880-DIN only)
- LED indicator light goes out when surge protection is lost
- Audible alarm with disable/quiet switch also indicates loss of surge protection (3880-DIN only)
- Outlet continues to provide power to connected load in the event of a loss of protection

Catalog Number
3880-DIN

Catalog Number
3801-DIN

DIN-Rail Mount SmartlockPro® GFCI Duplex Receptacles

Features:

- Available in 15A and 20A, 125V ratings
- If for any reason the GFCI Receptacle is miswired or the circuitry is not working correctly, the receptacle will not RESET
- Ground fault response time meets or exceeds UL & CSA requirements
- Improved immunity to high-frequency noise reduces nuisance tripping
- 10kA SCCR
- Fed Spec W-C 596 rated receptacle
- 20A feed-thru rating with GFCI protection

Catalog Number
N7899-DIN

Decora Plus™ Industrial Grade DIN-Rail Mount Duplex Receptacle

Features:

- Available in 15A, 125V rating
- Smooth face reduces dirt build-up and simplifies cleaning
- Cover constructed of impact resistant thermoplastic
