

Versi-Duct® Horizontal Cable Management System

APPLICATION

The Versi-Duct Horizontal Cable Management System uses slotted ducts to route cable. The ducts come with concealing covers and an assortment of cable management accessories. They mount onto a standard 19-inch equipment rack.

1RU Horizontal Slotted Duct

SPECIFICATION

Cable management system shall mount horizontally to a standard 19-inch equipment rack. The system shall be designed with slotted duct configuration for copper and fiber cabling systems. It shall be cULus listed and compliant with ANSI/TIA-568-C standards. The material shall be PVC rated for 94V-0. It shall have a duct cover. and bend-radius compliant router to transition between horizontal and vertical slotted ducts.

DESIGN CONSIDERATIONS

- Use on front and back of cable rack to route and manage cables
- · Use with either fiber or copper cabling system

STANDARDS COMPLIANCE

- ANSI/TIA-568-C
- · cULus Listed

PHYSICAL SPECIFICATIONS

Dimensions: See page two

Materials: PVC rated for UL 94V-0

ACCESSORIES

Accessories sold separately:

- Cable Retainer Adjusts to slide along the duct finger and includes break-away detail to accommodate all duct sizes
- **Designer Covers** Grey snap-on covers provide a high-end look while concealing cables transitioning from horizontal to vertical ducts
- **Duct Cover Hinge** The Duct Cover Hinge is designed to easily open and close duct cover for increased protection and easy access
