FEATURES

- Revolutionary 28 Volt LITHIUM-ION Technology
- 1/2 in. Hammer-Drill with all-metal, single-sleeve, ratcheting chuck with all carbide jaws
- Sawzall® Recip Saw with 1-1/8 in. stroke length
- 6-1/2 in. Circular Saw cuts 2 x 4's at 45°

SPECIFICATIONS

‣ Voltage	28 DC
‣ No. of Tools	4
‣ Bag/Case Type	Contractor Bag
‣ No. of Batteries Included	2
‣ Shipping Weight	35.4 lbs.

INCLUDES

- V28™ Sawzall® Reciprocating Saw
- V28™ 1/2 in. Hammer-Drill
- V28™ 6-1/2 in. Circular Saw
- V28™ Work Light
- V28® LITHIUM-ION Battery Pack
- 18V-28V Universal Charger
- No. 2 Phillips Bit
- Two Sawzall® Blades
- Circular Saw Blade
- Rip Fence
- Clip-Lok® System

The 0928-29 is the ultimate combo kit for those who demand extreme power, superior performance and the longest running cordless tools. The 0928-29 features the revolutionary 28 Volt Lithium-Ion battery pack exclusively from Milwaukee. The 28 Volt battery pack weighs less than an 18 Volt pack yet delivers two times the run-time making this the ideal solution for all cutting, drilling and driving needs!

The Milwaukee 0724 28 Volt 1/2 in. Hammer-Drill uses the Milwaukee built high power motor to develop an enormous 600 in. lbs. of maximum torque and 0-600/0-1800 rpm. The 0724 comes standard with a 1/2 in. all-metal, single-sleeve, ratcheting chuck with all carbide jaws that keeps bits from falling out and drill bits from slipping! A comfortable non-slip, soft-grip handle reduces vibration and fatigue. The 0724 also comes standard with the patented Clip-Lok® System. The Clip-Lok® System attaches securely to the operator's belt or tool bags and easily releases with one hand, ideal when working from a ladder or when there is nowhere to place the tool when adjusting or positioning a work piece. The Clip-Lok® System keeps the drill within arms length at all times. The Clip-Lok® System also features an on-board bit holder, which holds up to two standard Phillips bits.

The 0719 28 Volt Sawzall® Reciprocating Saw produces an amazing two times the runtime of 18V reciprocating saws. The variable speed trigger provides two levels of speed range: 0-2000 and 0-3000 strokes per minute. The 0719 also features a 1-1/8 in. stroke length, QUIK-LOK® blade clamp, patented gear protecting clutch, and keyless shoe adjustment.

The 0730 6-1/2 in. Circular Saw has the most power of any cordless circular saw, enough to cut over 300 2 x 4's on a single charge! The 0730 has a left-side blade for increased cut-line visibility, 4200 rpm for extremely fast cutting, 50° bevel capacity and all-metal blade guards.

The 49-24-0185 Work Light features a high intensity Xenon bulb, is Clip-Lok® System compatible and delivers over 5-hours of run-time on a single battery.

› 8 Piece Universal QUIK-LOK™ Flat Boring Set

› 6 Piece Universal QUIK-LOK™ Stubby Flat Boring Bit Set
