FEATURES & SPECIFICATIONS

INTENDED USE — Provides remote testing capability for all Lithonia unit equipment and exit signs.

CONSTRUCTION — Remote test switch plate includes white rocker-type test switch.

White plate matches most ceiling tiles.

Compatible with all Lithonia emergency lighting units and exits. Not compatible with emergency down-lights and Power Sentry inverters.

Provides the ability to test the emergency operation of the unit from a remote location.

INSTALLATION — Remote test switch plate installs onto a standard single-gang switch box with screws (provided).

Mounts in ceiling or wall near emergency lighting unit.

Recommended mounting no more than 25' from lighting unit.

Note: Actual performance may differ as a result of end-user environment and application.
Specifications subject to change without notice.
