

48" TRUE BLUE® I-Beam Level

Use the rugged and precise Empire® TRUE BLUE® I-beam 48-Inch Heavy-Duty Aluminum Level to mark level and plumb layout lines and determine slope in fractional inches per foot on both indoor and outdoor job sites. The anodized aluminum frame is weather-resistant and guarantees accuracy to 0.0005 of an inch. The Empire level 48-inch heavy-duty aluminum level is suitable for any horizontal or vertical surface. Advanced e-BAND™ Vial Technology offers four shatter-resistant acrylic windows containing high-contrast, high-visibility level and plumb bubbles. VARI-PITCH™ markings on the vials let you read horizontal pitch at 1/8, 1/4, 3/8 and 1/2 inch for each foot of run. The Empire level professional I-beam level frame has a series of grip zones for firm control and handling, and end caps protect the level from accidental impacts.

INCLUDES:

(1) [48" TRUE BLUE® I-Beam Level \(e80.48\)](#)

FEATURES:

- High impact acrylic e-BAND™ mono vials offer superior durability
- High contrast e-BAND™ vials highlight the edge of the bubble
- High contrast vial surrounds improve vial visibility
- VARI-PITCH™ vial reads slope at 1/8", 1/4", 3/8", or 1/2" per foot of horizontal run (e80.24, e80.48 & em81.24 only)
