

# Product End-of-Life Instructions

**Product Range:** Tesys F contactors 115 – 150A

**Marketing Model/Name:** (List of multiple models if applicable)

**This document covers Tesys F contactors 115 – 150A.**

## **Purpose:**

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

## **Note :**

This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

**H x L x D in mm:** 170 x 165 x 170

**Weight in kg:** 4Kg

## Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :  
Reuse → Separation for special treatment → Other dismantling → Shredding.

**The components of the products that optimize the recycling performances are listed, identified and located hereunder.**

**This product contains a printed circuit board which is recommended to be treated separately during the End of Life operations.**

Recommendation	Number on drawing	Components	Weight (g)	Comment
Special treatment	1	Printed circuit board	4	Overmolding of the coil has to be broken to extract the PCB
