

Metal Toggle Switch Covers

Applications

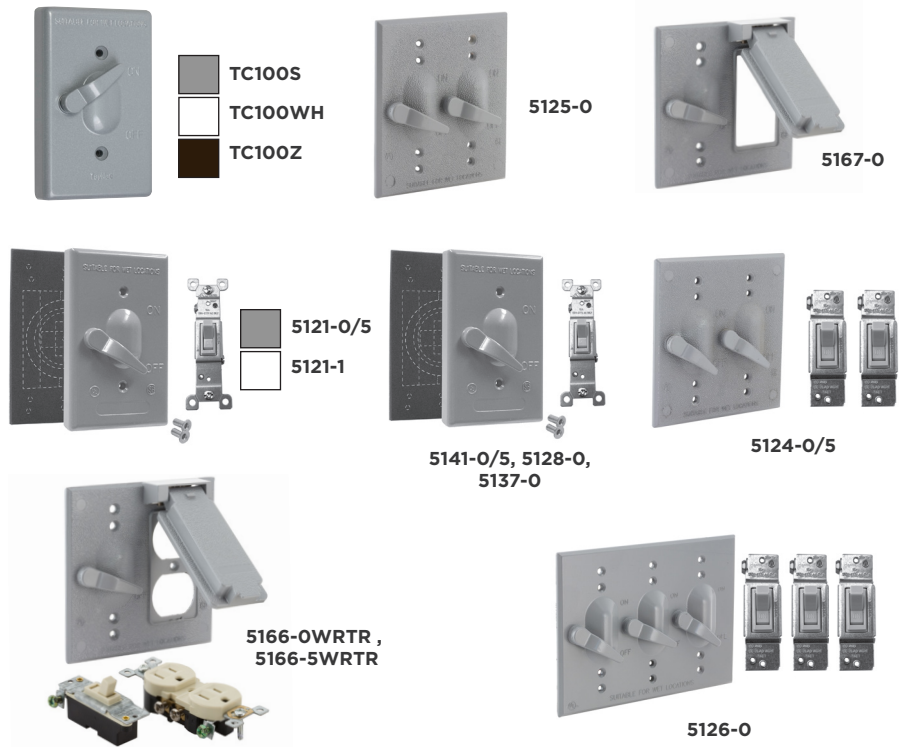

- For use whenever weatherproof protection is required for an “on-off” type switch

Product Features

- Rugged metallic construction
- Durable powder coat finish provides maximum weatherability and scratch resistance.
- Includes mounting screws, ferrules (inset spacers for low profile covers), gasket and multilingual instructions
- Kits include switch(es) configured for specific toggle cover use – no need to purchase separate components

Compliance

- File E195978
- C22.2 No. 18
- FILE E212332 (TC100)
- NEC® Compliant
- NEMA 3R
