Sure-Grip® EX Safety Storage Cabinets

EXtra safe, EXtra secure, EXtra sturdy

- Keep dangerous liquids safely organized and segregated
- Increase maximum allowable quantities of flammable and combustible liquids in control areas
- Improve efficiency by locating materials near point-of-use

Exclusive benefits:

U•Loc™ Door Handle
Flush-mount handle comes with installed cylinder lock and key set. Accepts optional padlock for added security.   **patent pending**

Haz-Alert™ Reflective Labeling
During power outages or under fire conditions, firefighter friendly warning labels reflect with high visibility when illuminated with a flashlight.   **patent pending**

SpillSlope™ Safety Shelves
Safely direct spills to back and bottom of leak proof sump. Adjusts on 3" (76-mm) centers for versatile storage.   **patented**

Quality Welded Design
Welded construction provides extra sturdiness and strength for long life. Quality is backed by an industry first 10-year warranty.   **industry 1st**

Haz-Alert™ reflective band at bottom alerts firefighters when crawling in smoke-filled areas.

Protect workers, reduce fire risks, and improve productivity by storing hazardous liquids in Sure-Grip® EX safety cabinets. Designed to meet FM, OSHA, NFPA, and International Fire Code standards—depending on model—Justrite cabinets feature an all-welded, 18-gauge (1-mm) steel, double-walled construction, with 1½" (38-mm) air space. The insulating air space provides protection by maintaining a comparative lower temperature inside the cabinet where flammable or combustible materials are stored. Fail-safe, self latching doors with durable three-point stainless-steel bullet latches provide easy, positive door closure. The U-Loc™ door handle comes with an installed cylinder lock and two keys, and also accepts optional padlock for extra security. Self-close door styles include fusible links at top corners that can be used to hold doors open. The fusible links melt at 165°F (74°C) to release doors and allow them to automatically close under fire conditions. Concealed closing mechanism maximizes available shelf space. Rounded door corners reduce accidental nicks or cuts and potential injury. Other features include a 2" (51-mm) leak tight sump, dual vents with flame arresters, four adjustable leveling feet, grounding connector, and reflective warning labels. Durable hybrid powder coat finish inside-and-out provides chemical resistance with high visibility colors for easy recognition. Ten-year warranty.

Sure-Grip® EX Safety Cabinets

NEW

Formed internal offset adds rigidity and strength.

NEW

Enclosed self-close mechanism provides obstruction-free access to top shelf space. Self-indexing doors close in sequence to ensure a tight closure from top to bottom. *Patent Pending*

18-gauge (1-mm) double wall steel with 1½" (38-mm) of insulating air space. Welded construction holds squareness for long life; door astragal provides extra sturdiness.
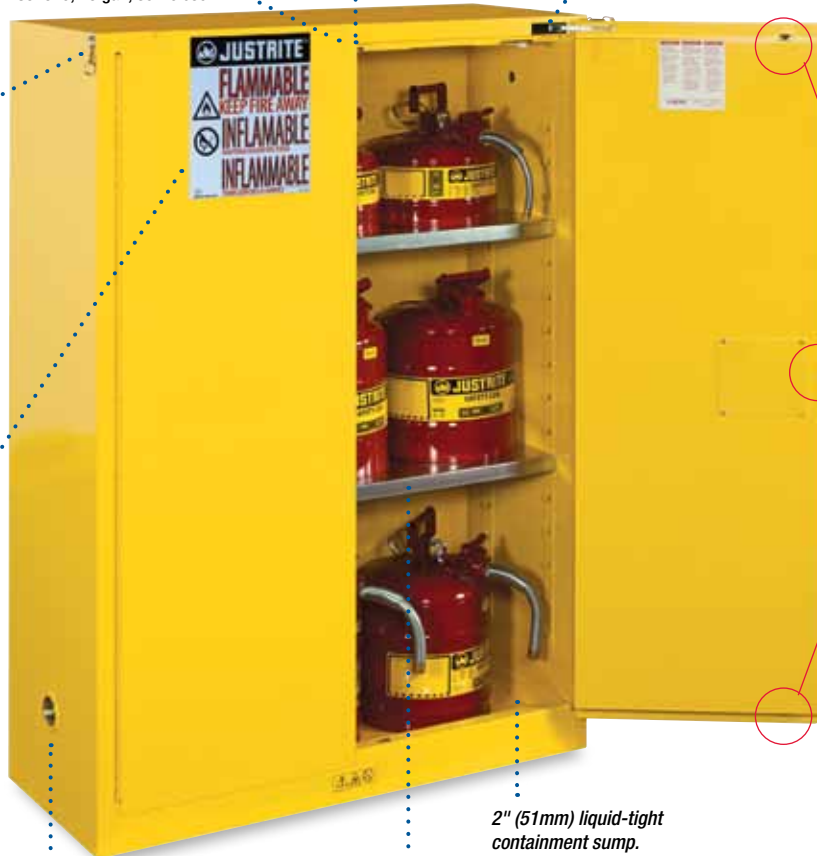

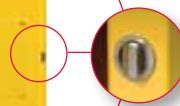

894520, 45 gal., self-close

Rounded safety corners on doors reduce accidental nicks or cuts and potential hand injury.

Fusible links hold doors wide open and melts at 165°F (74°C) for automatic closure (on self-close models).

Three-point, stainless steel bullet self-latching system provides failsafe, positive door closure with increased heat resistance. *Patent Pending*

Haz-Alert™ reflective labels provide high visibility in the dark under fire conditions or power outage when illuminated by a flashlight beam. Warning in three languages. Large international warning icons enhance global communications. *Patent Pending*

Dual vents with built-in flame arresters at bottom and opposite top.

2" (51mm) liquid-tight containment sump.

U•Loc™ handle accommodates optional padlock for extra security and keycoding multiples for convenient access. Double key set included for keyed lock. *Patent Pending*

Patented SpillSlope™ safety shelves direct spills to back and bottom of leak proof sump; adjust on 3" (76-mm) centers for versatile storage.

FM FM Global Tested and Approved
N Designed in accordance with specifications set forth in the National Fire Protection Association (NFPA Code 30)
O Complies with OSHA regulations
U Complies with NFPA 1 Fire Code and International Fire Code

Storage Options

Reduce Vapors

Note:
VOC vapor adsorption rates will differ based upon variables such as the chemical itself, its purity or its vapor pressure, temperature, humidity, charcoal age, etc.

VaporTrap™ Filters improve your work environment by reducing harmful VOC vapors. Activated carbon filter medium contained in a stainless-steel mesh cartridge adsorbs the volatile organic chemical vapors found inside cabinets containing flammable liquids. This reduces employee's inhalation exposure to VOCs and lowers emissions of VOCs into the atmosphere. Sturdy 4" x 5½" (102 x 139-mm) magnetized base offers flexible placement anywhere within the cabinet. Date notation area on label serves as a reminder for replacement. Life cycle varies based upon vapor types and concentrations.

Two to a pack

VaporTrap™ Filter *NEW*

Description	Nom. Dimensions Filter L x D (mm)	Ship Wt. Lbs. (Kgs.)	Model No.
VaporTrap™ Filter (2 pk.)	8¾" x 2¼" (222 x 57)	4 (2)	29916

The VaporTrap™ Filter is not intended to be used as a substitute for using safe, closed containers as required by OSHA and the EPA. It is important to clean up spills and residues from the cabinet and containers.

Organize Liquids

Cabinet Shelf Dividers keep small containers organized. Set of four steel, powder coated dividers offer flexibility – simply place over shelf and slide into position.

Stabilize Where Needed

Floor Mount

Wall Mount

Seismic Bracket Kit provides an extra measure of stability for earthquake or hurricane prone areas. All mounting hardware includes floor and wall brackets which do not require drilling into cabinet, maintaining FM approval on the cabinet.

Description	Dimensions H x W x D (mm)	Ship Wt. Lbs. (Kgs.)	Model No.
14" (355mm) Deep Shelf Divider	2" x 2^1/$_{32}$" x 14^{11}/$_{64}$" (51 x 52 x 359)	5 (2)	29985
18" (457mm) Deep Shelf Divider	2" x 2^1/$_{32}$" x 18^{11}/$_{64}$" (51 x 52 x 462)	6 (3)	29990
