

ACCESSORIES

Xtender™ for Nested 19" and 25" Forming Tubes*

Snaps on to the end of each BOLT STAR® arm and extends it to fit the larger outer diameter nested concrete forming tube. Set of four required per Bolt Star tool.

- Use Xtender with Bolt Star on the “nominal” or larger outer diameter concrete forming tubes found in certain regions of the U.S. and Canada. The larger outer diameter tubes are typically “nested” or slipped over the outside of standard 18" or 24" tubes to save on shipping costs and storage space.
- Xtender is interchangeable between 18" and 24" Bolt Star:
 - Fits 19-inch Outer tubes from 19.00 to 19.355 inches OD
 - Fits 25-inch Outer tubes from 25.178 to 25.449 inches OD
- Fits nominal tube manufactured by Sonoco, Newark and Carastar
- Reusable: Made in the USA of high strength ABS material
- Part Numbers
 - Xtender (1 set of 4): 004-00405
 - Xtender20 (5 sets of 4): 020-00406

Maximum 500-lbs load with Bolt Star. See installation notes for more information.

***Xtender is not required nor recommended for the standard diameter 18" or 24" forming tubes**
