Lighting control in the palm of your hand.

The next generation of lighting control technology is here.

Bridging the gap between traditional dimmers and whole-house automation systems, Decora Digital Controls with Bluetooth® technology provide local control within a 30-foot* range without the need of a hub, gateway or internet connection.

* **30-ft Bluetooth range:** Range may vary depending on specific conditions of installation, configuration of walls, obstacles and other factors.

Decora Digital Controls are ideal for living rooms, bedrooms, kitchens, dining rooms, porch lighting, offices, light commercial applications, or anywhere full control of lighting is desired.

Decora Digital Dimmers

These powerful devices combine the best of Leviton dimmer and timer functions with today's technology. Just use your smartphone or tablet to control, adjust and time lighting for daily activities or to ensure a "lived-in" look while away.

Decora Digital Switch

Enjoy the combined functions of a standard wall switch and a countdown or programmable timer switch in one attractive device. Using the app to set timer functions makes it quick and easy to control lights and other switched loads such as exhaust fans or pool filters.
