

ATTACHING AN ADDER TO AN EXISTING DISTRIBUTION BLOCK

Adder:

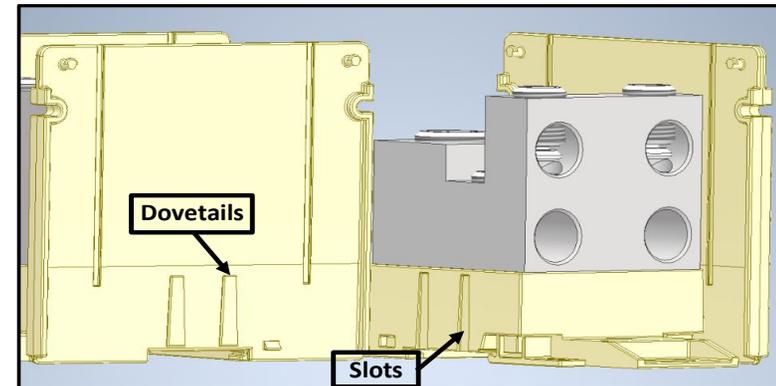

Existing Distribution Block:

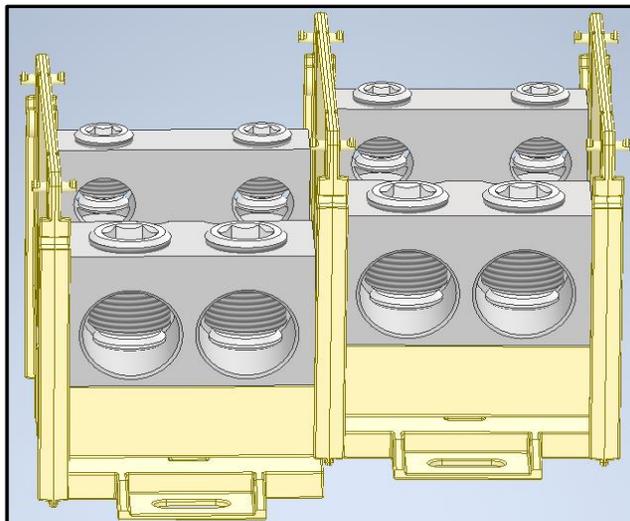

Step 1:

Locate the dovetails on the existing block and the slots on the adder.

Step 2:

Align the slots of the adder to the dovetails on the existing block and slide the adder down.

Step 3:

To "seat"/"lock" the dovetails place a wooden block, or other soft object, on top of the aluminum block and using a mallet, or equivalent, tap it down.
