

The new generation of circuit breakers

PowerPacT

Part of Pact Series

Innovative design

Introducing PowerPacT™ the industry-leading, multi-standard compliant range of molded case circuit breakers (MCCB) that delivers unrivaled reliability. Suitable for heavy-duty applications, this highly flexible solution is designed to protect electrical distribution systems from damage caused by overloads and short circuits. With ratings from 15 A to 3000 A.

Unique features

- Reduce downtime with the industry's first LED Visi-Trip™ trip locator
- Multi-Standard for simplified global design
- Next-generation design
- QR Codes for easy access to device documentation
- Transparent cover to quickly identify breaker accessories

Powering You to Succeed

Proven Performance

Industry-leading circuit breaker innovation and protection for heavy-duty commercial and industrial applications.

Flexible

Full range of molded case circuit breakers from 15 A to 3000 A, delivering the ratings, configurations, and operators for your unique application. Easy to install, extremely versatile, and a wide variety of terminal options, including mechanical lugs, crimp lugs, power distribution lugs, and lug shields.

Enable new business models

Common catalog numbers, standardized ratings, and a full range of field-installable accessories make product selection, installation, and maintenance easier than ever.

Multi-standard

Rated for both domestic and international standards with worldwide service and support. Rated best in class I-Line mounting for Square D™ panelboard and switchboard applications.

Technical specifications

- Flexible current range from 15 A to 3000 A
- Interrupting ratings include 18ka thru 200ka @ 480Vac
- Serviceable in 1 - 4-pole constructions
- Available in standard 80% or 100% ratings
- Thermal-magnetic and electronic protection available
- Over-center visible toggle mechanism providing quick-make, quick-break operation and visual indication
- Equipped with a unique terminal design that makes converting between busbar and lug options easy
- Common accessories and auxiliaries within the PowerPacT range of molded case circuit breakers
- Ensures compliance with international standards: UL 489 and IEC 60947-2
- Certifications: UL, CSA, NOM, IEC, CCC, and CE marked for global acceptance
