

# ICEGRIPS OVERSHOE® 14"

Model JD6472

ICEGRIPS OVERSHOE® is a line of aggressive ice and snow winter overshoes that fit over all types of shoes and boots. ICEGRIPS OVERSHOE® are engineered for extensive winter walking. Constructed of water resistant nylon, they are designed to keep your employees underlying footwear clean and dry.

The traction comes from 26 tungsten carbide studs that aggressively handle the winter's harshest conditions. The spikes are molded into the sole for maximum durability and surrounded by an aggressive tread for additional traction in snow environments.
