WARNING – This product contains chemicals known to the State of California to cause cancer, birth defects and/or other reproductive harm. Thoroughly wash hands after installing, handling, cleaning, or otherwise touching this product.

J-Box Mounting

1. Open the back-plate and knock-out the hole in the center of the back-plate to run the AC wiring.
2. Locate the AC wire connections and feed through the hole.(Fig.A)
3. Connect the AC wires to the supply using the wire-nuts provided.
4. Connect the battery.(Fig.B)
5. Install the housing onto the back-plate, AC power can now be applied to the unit.(Fig.C)

Conduit

Secure Base Plate to wall surface. Route wires through hole in conduit flange and make conduit connection. Use flexible conduit only.

Connect Battery before continuous AC power is being supplied to the unit (Fig. B)

Align snaps and push housing directly onto the Base Plate (Fig. C.) Apply continuous AC power and press "TEST" button to check light.
