

WHY SWITCHABLE?

EASE

FLEXIBILITY

EFFICIENCY

SAME CPX CONFIGURATION GETS BETTER LPW IN SWITCHABLE FORMAT

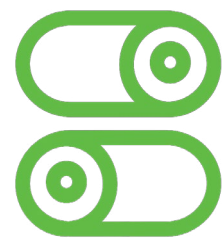

CPX 2X4 40LM 40K

Switchable = 144 LPW
Static = 121 LPW

ALMOST
20%
GREATER EFFICACY

HOW?

Lithonia Lighting switchable panels throttle back from highest to lowest lumen packages. This means a switchable CPX is under driving the LEDs that would normally be maxing out in static form.

TAKEAWAY?

Higher lumens or higher efficiency in one panel. Your choice!

SWITCHABLE PRODUCTS ACCOMMODATE DIFFERENT CEILING HEIGHTS IN SINGLE APPLICATION

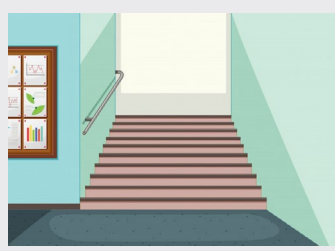

CPX 2X4 AL08 SWW7

CLASSROOM

9FT RECESSED CEILING
LOW LUMEN SETTING

HALLWAY

12FT RECESSED CEILING
MEDIUM LUMEN SETTING

ARTS/SPECIALS ROOM

15FT OPEN CEILING
HIGH LUMEN SETTING
