

New Product Announcement

June 2022

Fluke TL1500DC Insulated Test Leads

The TL1500DC insulated test leads were developed for solar applications and were included with the 393 FC. A standalone version of these same test leads will now be available for purchase separately. These test leads provide safe and accurate voltage measurements up to 1500 V DC and are CAT III 1500 V/CAT IV 600V safety rated for use in rough outdoor environments. Other common applications include wind and battery.

Technical specifications

- IEC 61010-031 CAT II 1500 V, CAT III 1500 V, CAT IV 600 V, 10 A
- Compatible with all instruments that accept standard 4 mm shrouded banana plugs
- Pollution Degree 2, 2000 m altitude
- Environmental ratings: Operating -10 °C to 50°C
- Storage: -20 °C to 60 °C @ < 80 % RH

Launch Assets & Marketing Communications

The following launch assets have been created to support the TL1500DC product launch:

- Photography
- Launch Email
- Web Text / Catalog Copy for sales partners

They can be accessed from:

- Product Launch Folder: \\global.tektronix.net\global\namerica\everett\workgrps\adv\public\Product Launches\Accessories\TL1500DC
- Distributor Launch Page: <https://distributors.fluke.com/>

If you can't find what you need, please contact your Fluke sales representative.

Expectations at Launch

We expect our channels to get themselves ready for launch on "Public Embargo Date". Things you can work on already are:

- Prepare your systems & upload with all relevant data from our launch sheet
- Placing your first stocking orders – use the launch packs if appropriate
- Prepare your website pages to go live on "PE date"
- Plan your first launch communication activity to your customer base
- Plan your own customer facing webinar(s)
- Schedule additional communication activities (a monthly cadence is recommended) to help drive demand

For questions and if you want to receive product announcements from Fluke directly, please contact your Fluke sales representative.
