Our Reference: File E61997

Subject: Reason that Listed UL508A (CCN: NITW/NITW7) enclosures do not have model nos.

Dear Mr. Kampa:

You recently asked why enclosure model numbers do not appear on your UL Certification or in the Online Certification Directory which can be found at www.ul.com. Your file E61997 is covered under the category for Industrial Control Panels, UL category control number (CCN) NITW. This category also covers Industrial Control Panel Enclosures. NITW is what we refer to as a Type L category.

Products covered under Type L categories are not required to be marked with a Model, Catalog or Part Number as are products covered under Type R categories (Type R service covers many Listed products and all Recognized Components (like yours covered under NITW2)). Because of this, we're not allowed to add Model numbers to our Listing Information System which populates the OCD.

It is important to note that the presence of the UL Listing Mark on the product is evidence that it is Listed. Appearance of a Model Number in the OCD is not a substitute for that.

Please let me know if you have any questions.

If you have any questions, please do not hesitate to contact us.

Your business is very important to us and if there is any additional information that we may provide to you about the investigation or UL's other services, please do not hesitate to contact us.

Sincerely,

Nicholas Boten
