

LDN FAMILY

Best Value in Downlighting

Meet the Downlights

The LDN Family is known as the best value in downlighting. Their general illumination performance provides a glare-free experience without compromising efficacy. With multiple aperture sizes, shapes, forms, drivers, and control options, you have a simple and flexible solution for any new construction project.

The newest member of the LDN Family provides new driver capabilities including switchable CCTs and lumens, and multiple dimming options. Save on energy consumption, labor costs, and time, while giving customers and their occupants the lighting they deserve.

LDN3

Round or Square Open and Wall Wash

- ▶ Discrete downlights with easy install-from-below design delivering up to 1,500 lumens

Endless Configurations.
One Consistent Look.

Flexible. Reliable.

Controls Made Easy

Networked Lighting Controls Platform

Simple

Embedded nLight wired or wireless lighting controls available within the LDN Family.

Reliable

nLight embedded fixtures will aid in code compliance and reduce energy costs.

Scalable

nLight platform can scale to a building or campus-wide network system when you're ready.

Products include: LDN3, LDN4, LDN4SQ, LDN6, LDN6SQ, LDN8, LDN8SQ, LDNRV Retrofit Kits, LDN4 Cylinder, LDN6 Cylinder, LDN8 Cylinder

WIRELESS PAIRING WITH JUST ONE TOUCH

JOT is a wireless, app-free solution for single room lighting control. The JOT enabled solution shortens the installation and pairing process into these three simple steps:

Power

Install JOT enabled fixtures and controls as instructed. No 0-10V wires needed!

Pair

Insert the pairing tool into the pinhole. Then, press and hold any button for 6 seconds. Once paired, each fixture will individually dim to 10% brightness.

Play

Products will be fully functional once all fixtures return to 100% brightness.

Products include: LDN4, LDN4SQ, LDN6, LDN6SQ
