

PRODUCT:

# WEED KILLER

WEED KILLER

**4037**  
4037S  
4037P

THE BASICS:

- This non-selective product controls a wide range of annual and perennial weeds, grasses, and other vegetation where it is applied. Because WEED KILLER is a soil sterilant, it can be applied during any season of the year to kill existing plants or to prevent weed growth.
- WEED KILLER is a granular product that requires no mixing. Unlike liquid products which can drift with the wind, this herbicide stays where you put it. Pre-measured 8 oz mylar bag is odor proof, water proof, and burst proof.
- Plants absorb this systemic herbicide through the roots, causing them to die from the inside out. WEED KILLER contains one ingredient for deep-rooted vegetation and another for shallow-rooted weeds. This two-part formula results in elimination of weeds around telecom and utility equipment for one growing season.
- Controlling weeds is one of the easiest ways to reduce fire hazards, rodents, insects, and the corrosion that attacks outdoor equipment. When sunlight can reach the equipment, moisture dissipates quickly and there is less corrosion. It also increases visibility of equipment and utility closures preventing damage by mowers and vehicles.

APPLICATIONS:

Use WEED KILLER for general weed control around:

- Buried cable closures
- Cross-connect boxes
- Power substations
- Telephone booths
- Transformer pads
- Utility poles
- Guywires
- Fire plugs

| FEATURES                                 | HOW YOU BENEFIT                                                                                                                                                             |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application lasts for one growing season | Reduces maintenance activity to one application each year                                                                                                                   |
| Increases visibility of equipment        | Equipment easily located. Protects equipment from damage due to mowers and vehicles                                                                                         |
| Use around ground-mounted equipment      | Clean environment for working on equipment. Protects equipment from damage due to fire and corrosion. Eliminates nesting sites for snakes, rodents, wasps, and other pests. |

## TECHNICAL HIGHLIGHTS:

Application Rate: Apply 8 ounces to 16 ounces per 100 square feet. For superior results, apply early in the growing season.

## RELATED PRODUCTS:

Rainbow Technology offers a comprehensive line of products to the utility and telecommunications industries. Users of WEED KILLER often find these other Rainbow products helpful too.

Fire Ant & Insect Killer (4480, 4483, 4484)  
Prepared Gravel (4054)  
Prepared Gravel Kits (4057, 4058, 40585, 4059, 40595)  
VIS-I-CAP® (4382, 4383, 4384)  
INSECTAPE® (4045)  
Mice & Rat Bait (4025)  
Havoc® (43550)  
Wasp & Ant Killer (4335, 88500)  
KNUCKLES Hand & Tool Cleaner Towels (79315, 79316)  
Insect Probe (4357)  
Sprakil S-5 Brush Control (4033)

## MATERIAL SAFETY DATA SHEET:

This product is only for sale to and use by service personnel. MSDS available on request.

## PACKAGING:

| PRODUCT<br>NUMBER | CONTAINER<br>SIZE | UNITS/<br>CASE | CASE<br>WEIGHT | CASE SIZE<br>L x W x H |
