Reliable products for heavy industries

Harmony® 9001K and 9001SK push buttons, pilot lights, selector switches and mushroom head operators provide robust and reliable solutions for a wide range of heavy industry applications.

Features:

- Integrated earth ground connection (no ground wires required)
- Easy installation with octagonal ring nut
- Illuminated and non-illuminated push buttons, selector switches and mushroom head operators
- Metal or plastic legend plates
- Interchangeable lens caps, selector switch knobs, contact blocks, light modules and accessories

All 9001K and 9001SK products are CE marked, UL Listed, CSA Recognized and RoHS compliant.

Two ranges for more applications

9001K and 9001SK

Attractive 9001K chrome-plated bezels for most robust applications (Rated IP66, Type 4).

Double insulated, corrosion resistant 9001SK plastic bezels for oil, water and chemical applications (Rated IP66, Types 4X and 13).

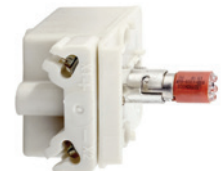

With easy-to-install and identify features, the Harmony 9001K and 9001SK products deliver high performance and maximum flexibility to meet your most challenging requirements. Modular design and side-by-side mounting capability allow to optimize panel space and save installation time and costs.

- Full-size and shallow depth light modules
- Reduced panel space with side-by-side mounting
- Easy-to-actuate, tactile feel operators
- Maintenance-free operation
- Simplified installation and identification
- Wide range of accessories, colored lenses and knobs for customer adaptations

Incandescent light module

- Low cost
- Proven technology

LED light module

- Energy efficient
- 100,000 hours

Contact Blocks

- Finger-safe wiring terminals
- Single-screw fastening
- Mounted side-by-side and stackable

The best product for all your heavy-duty needs!
